

morphine, My Brain

my whole brain was out of tune
my whole brain was out of tune
I don't know how to tune a brain, do you?
went in to a brain shop
they said they'd have to rebuild the whole head
I said well, do what you gotta do
when i got my brain back, it didn't work right
didn't have as many good ideas
haven't really have a good idea since i got it fixed
