## Morrissey, Nobody Loves Us

Nine times fined Never mind Things can only improve We are just stood here Waiting for the next great wound

And we just can't wait to make more mistakes And to fluff our breaks, and to stuff our faces with cake

All in all, imagine this : Nobody loves us Dab-hands at Trouble With four days of stubble, we are Never loosen the grip on our hand Call us home Kiss our cheeks Nobody loves us So we ... oh ... we tend to please ourselves

People think all we do Is lie around and think of how Rich we'd be if we didn't think Life could improve

And we just can't wait to make more mistakes And we just can't wait till the whole thing blows up in our face

Call us home Kiss our cheeks Nobody loves us Dab-hands at Trouble With four days of stubble, we are So, never loosen the grip on our hand Call us home Make our tea Nobody loves us So we ... oh ... we tend to please ourselves

Call us home Tuck us in Nobody wants us Dreamers and schemers All pie-eyed, and bog-eyed, and cross-eyed Oh, never loosen the grip on our hand Whack us, then Hug us hard Nobody loves us So we ... oh ... we tend to please ourselves

And we just can't stress, oh, how more the mess And complete distress won't make much difference to us

Sing us our Favourite song Nobody loves us Born-again athiests Practising troublemakers Make us our Favourite jam Nobody loves us Useless and shiftless And jobless But we're all yours
