

# Mors Principium Est, Terminal Liberation

I feel much stronger  
Everyday when I'm trying to be like this  
I'm getting stronger  
Feed me energy

I will start the day now  
With a fire that swallows them all  
The day will start now  
With annihilation

I am a warmachine  
Death and destruction I breed  
I'll give you war with many faces  
Some say I terminate  
I'm here to liberate  
This is what you've all been waiting for

Claustrophobic human race  
Don't know how to hate  
Not even if they all live in fear  
It may be false or real  
They believe what they see  
Well I can show you all the facts

Liberate, terminate, annihilate  
It's all the same to me

Claustrophobic human race  
Don't know how to hate  
Not even if they all live in fear  
I am a warmachine  
Death and destruction I breed  
This is what you've all been waiting for
