

# Mos Def, Wylm Out

(feat. Diverse, Prefuse 73)

[Diverse]

My mind compliance like a science  
Analyze my data, not a fader on the face of the earth  
Can blend rhythms like my will, surreal spinnin  
Ever-movin like evolution it's retribution  
For sellin roots, lessen futures, I'm steppin to fuse? ya  
Sun rises my subconsciousness culminates constant  
Live to see various i-de-ologies, angles like isosceles  
read my auto-b-i-ography  
So many stars? to me that vibrantly shine  
Velocity's properly thick like mahogany dimes  
We findin beauty in this urban-gritty usually overlooked by many  
Movin through the densely populated city  
And soon and eventually - 'we gotta get ova'  
I document culture closer to the edge  
Bolder than a print, open to interpretation, gazin deep into the glitz?  
To my people, raise you fists  
I know it stays intent, whatever pays your rent, but saves your soul  
You know the drill, it go:

[Mos & Diverse simultaneously]

Hotter than most dudes  
From left to right, on top and below you  
Flow like the coastals, move like smoke do  
-I'm Diverse- these other cats is just hopefuls  
When they ask who put it down, baby, you know who  
Tell your whole crew, it's somethin that you need to know, dude  
This is how we go through

[Mos]

Who the poisoned pen?  
Mos got the inkwell full of syrum  
Prescribed for any emcee claimin they ill  
A small dose'll change the way that they feel  
Milligrams in the raw, snow-cut, check how I label the pill  
It's MD, the spit-doctor, chant like a witch-doctor  
Recite me, and ya whole ailment get proper  
I'm the, medicine man, representin my clan  
Mixin the potion with verse fire and simmer, my man  
And stay shoutin out the home team wherever I am:  
it's the B-R-O double akh-K-L-wY-liN out  
The cowboys who don't fret to pull they lamas? out  
Ironhorse style cab?, hoop-te ville ridin out  
No lights, no cam, action - drama'd out  
?? out, absorb the shit that I'm about  
Inner-city Bruno, ghetto folks, holla out  
I'm good money, tell the doubters get they wallets out  
Hot when the dice is out, they go broke findin out  
Smack ya mojo, caught a half of 'oh no'  
Magical vocals, get it down like coastals?  
Underground nigga that spoke truth and broke through  
Shine bright when I'm far from my close-to  
I told you, you know how Mos do

Hotter than most dudes

From left to right, on top and below you  
Flow like the coastals, move like smoke do  
-I'm Mos Def- them other cats is just hopefuls  
When they ask who put it down, baby, you know who  
Tell your whole crew, it's somethin that you need to know, dude  
This is how we go through

[Diverse]

Exposed to a higher set of variables, as fly as aerial  
Definin stereo components, moments with my master  
Remasterin techniques, havin some fresh sheets  
Damagin margins with a broader outlook - 'we lookin out, y'all'  
Me and Mr. Mighty Mos, we outlaws  
Blazin in the saddle, raisin like the mornin star, formin majestic  
Candescent like the street lamps, I-be-amped to inn-o-vate  
Reminiscent of technology, probably just my will to build  
To real notions of emotions similar to the seven seas  
Steadily sparkin cables, tables turnin like the high tide  
I'm captive to this music, vastness, into it i skydive  
Tumblin like buildings crumblin on inner-cities cumbersome  
They comin to run us out, my niggas shout for justice  
You wanna link with me, then let me know  
This music is like my vessel so we seem to be inseparable  
From C-?Sea?-town, headed eastbound  
You know the rest, it go:

Hotter than most dudes  
From left to right, on top and below you  
Flow like the coastals, move like smoke do  
-It's D-I- these other cats is just hopefuls  
When they ask who put it down, baby, you know who  
Tell your whole crew, it's somethin that you need to know, dude  
This is how we go through
