

Mother Superior, Four Walls

Four walls around me
Four walls of pain
Four walls surround me
And they all know your name
Im tired of trying
And I know Im not to blame
But Im stuck inside of these four walls again
I got four walls ahead of me
Four walls behind
Four walls are strangling
My worried mind
Four walls around me
Ive got nowhere to go
Rain falls down on this weary town
Lonesome whistle blows
Youd think by now
Id be used to the pain
But Im stuck inside of these four walls again
I got four walls ahead of me
Four walls behind
Four walls are strangling
My worried mind
Four walls that stop me from walking away
This misery and heartache
Are the price that I pay
I cried out for mercy
And nobody came
Im stuck inside of these four walls again
I got four walls ahead of me
Four walls behind
Four walls are strangling
My worried mind
