

# Motion City Soundtrack, Antonia

She makes a lot of abstract art  
She haggles for the cheapest price  
She never orders take-out food  
Before 10 o'clock at night

She's really into snowmobiles  
She owns a lot of nice flashlights  
She cares for all the stupid cats  
That never found their way home

She shaves her legs with Ginsu knives  
She quotes a lot of Annie Hall  
She misplaced her virginity  
Back in 1995

She's what's keeping me alive  
She's the pizza of my eye  
Without her near me I would not survive

It gets cold when she's not around  
I float into our sink and get swallowed up  
It's so cold when she's not around  
I wait for her to come home  
And tell me I'll be fine

She's always eating Captain Crunch  
She sings a lot of Ben Folds Five  
She's scared to death of cobra snakes  
Just like Indiana Jones

She tells the dumbest knock-knock jokes  
She drinks a lot of Chardonnay  
She hates the way I comb my hair

But she married me last year  
She was the bride, I was the groom

I cried a lot and then we spooned  
Without her in my life I would be doomed

It gets cold when she's not around  
I float into our sink and get swallowed up  
It's so cold when she's not around  
I wait for her to come home  
And tell me I'll be fine, tell me I'll be fine

She loves the smell of Christmas trees  
She sneezes when she sees bright lights  
She fainted on the kitchen floor  
When her father passed away

Our baby girl is here to stay  
And when the little lady grows up  
I hope that she will be just like her mother
