

# Motion City Soundtrack, Calling All Cops

Calling all cops and autobots,  
I hope that you're still there  
Saving victims from the wreckage  
Of our wild affairs, such wild affairs.

Copy all cats and acrobats,  
I know you don't play fair,  
Sending sickness through the atmosphere,  
Without a care, without a care.

Calling all dolls and concert halls,  
The curtain hits the cast,  
They parade like perfect ponies,  
But it never lasts, it never lasts.

Sever all ties to satellites  
That broadcast worthless words  
You're extrapolating nonsense  
And it really hurts, it really hurts.

When I'm awake,  
I make the same mistakes they make.  
When I'm awake,  
I can't escape.

When I'm awake,  
I make the same mistakes they make.  
And everything just falls apart.

Calling all cops and autobots,  
I hope that you're still there,  
Saving victims from the wreckage,  
Of our wild affairs, such wild affairs.

Suffer all teens and dramamine,  
The coast is not yet clear,  
Every continent has chaos,  
And we need you here, we need you here.

When I'm awake,  
I make the same mistakes they make.  
When I'm awake,  
I can't escape.

When I'm awake,  
I make the same mistakes they make.  
And everything just falls apart.

(Calling all cops and autobots)  
And everything just falls apart,  
(Calling all cops and autobots)  
And everything just falls apart.  
And everything just falls apart.
