

Motley Crue, A Rat Like Me

Can you smell sarcasm on my breath??
I'm a new age puppet strung out on death
A rat like me won't save the world
A freak like me
A rat like me won't save your world
Going down and killin' time
Down down down
I do the dance of the cursed everyday
There's nobody worse nowhere no way

A rat like me won't save this world
A shit like me
A rat like me won't save the world
Going down one step away
Down down down
Everybody's bangin' on this landmine
Everybody's sippin' on their pain
I am not alone in my head here
But i'll gladly take the blame
I'm a snot nosed nuclear sonic punk

A rat like me won't save the world
A man like me
A dog like me won't save
A worm like me won't save
A rat like me won't save the world
Going down and killin' time
Down down down

Rat dog worm freak
