

Motley Crue, Give It Up

Now come on listen honey
I'm talkin' to you
Just need an answer
Tell me what ya wanna do
Now relax and take it easy
Stop all your jive
Don't leave me hangin'
Baby, let me come inside

She's such a teaser, the way she walks
I follow right behind
I wanna push push push it in ya honey
You burn me up inside

Give it up, why don't ya give it up
Don't give me reasons, honey won't you
Live it up (x2)

You got me tongue-tied baby and you're lookin' amused
Give me a signal tell me that you want me to

You got me rock hard honey, from your straddlin' smile
Don't keep me waitin', baby I don't like that style

She's still the teaser, the way she talks
It hooks me everytime
I wanna push push push it in you honey
Oh God she blows my mind

Give it up, why don't ya give it up
Don't give me reasons, honey won't you
Live it up

Give it up, why don't ya give it up
Don't think about it, baby won't you live it up

She's such a teaser, the way she walks
I follow right behind
I wanna push push push it in ya honey
Oh God she blows my mind
