

Motley Crue, Hypnotized

Oh, everybody, do you hear the big bass drum?
Louder, louder
Yeah, it's gettin' in you
Like the needle from a gun
Deeper, deeper
Oh, we don't need it
Since we've taken to the lust
Once you've slept with the rhythm, baby
The danger is a must

You're hypnotized, you're triptonized
Oh, don't you hear it call your name?
You're hypnotized, yeah

Hey, turn it louder, 'cause I want to feel the push
Harder, harder
Ooo, under your skin
Well, slidin' through your veins
Well, I've got a nasty habit, babe
I always do it again

You're hypnotized, you're triptonized
Oh, don't you hear it call your name?
You're mesmerized

You're hypnotized, you're triptonized
Oh, don't you hear it call your name?
You're paralysed, hypnotized
Oh, don't you hear it call your name?
You're tranquilized, yeah
