

# Motley Crue, Welcome To The Machine

Step right up and listen  
Welcome to the show  
Sign on the x to sell your soul

It's so automatic  
Hocking broken plastic  
Royalties you'll never know

Rotting to the core  
Give your ass like a whore  
Once you take a hit  
You need more more more more...

(Chorus:)  
Welcome to the machine  
Once it sucks you in you'll never leave  
Grind you up spit you out  
After all you're just a piece of meat  
Welcome to the machine

Count your days they're numbered  
Where you gonna be  
When it all goes down in flames

Sell out to the rats  
Make em rich make em fat  
Get a poison dwarf to watch your back
