

Motor Ace, 5 Star Laundry

My outside feeling is wrapped in a million things
God, it's good to be back home
While I'm casting doubt, we'll sit and talk about
The many way of getting burnt
Five star dreams are still my call
You said I'm insane but i'm not sure
While I'm passing out, don't fall
We've been here before... who's keeping score?
The company you keep puts my heart to sleep
Better to be someone you know
While I'm casting doubt, we'll sit and talk about
The many ways of getting stoned
Five star dreams are still my call
You said I'm insane but i'm not sure
While I'm passing out, don't fall
We've been here before... who's keeping score?
Five star dreams are still my call Five star never die
