

# Motorhead, On The Road

You know the rules, you all know the game  
Try and do whats right  
But you know I can't complain  
If I die tonight  
'Cos you know it wouldn't be so easy  
'Cos life ain't that way  
And you know I've got unfinished business  
Got a word to say  
On The Road

Bet your life it ain't no easy livin'  
But you won't hear me bitch  
Spent as much time taking as giving  
I've got the ten year itch  
But I wouldn't change the situation  
If I could start again  
'Cos you know I've got a bad reputation  
But I don't feel no shame  
On The Road

Don't you listen to a single word  
Against rock'n'roll  
The new religion, the electric church  
The only way to go  
There's only one thing that I need  
To make my life alright  
I just want the one I want  
I want her every night  
On The Road
