

Motorhead, Treat Me Nice

Baby I'm here to tell you, ain't nobody like me
I ain't never done nothin' to cause you misery
I don't say I'm a good man, I ain't the best you can find
But deep down in the dog babe, I drive you out of your mind

Treat me nice,
Oh baby treat me nice
Take it slow and easy baby
Take it slow, good and right

Baby listen to me now, ain't nobody like you
You ain't done never nothin' that I wouldn't do
I don't want to be evil, that ain't what I'm about
But deep down in the dog honey, make you jump and shout

Treat me nice,
Come on baby treat me nice
Take it slow and easy baby
Take it slow, good and right

You know I'll be back baby, you know I can't stay away
Take it slow and easy honey, make it all night and all day
I won't stop till it's over, till you feel real good
Deep down in the dog dog night, just like a bad boy would

Treat me nice,
Baby baby treat me nice,
Take it slow, slow, slow and easy
Take it slow and make it right
