

Mountain, Never In My Life

Never in my life
Could I find a girl like you
Never in my life
Could I find a girl like you
When I wake up in the morning
You make me feel so good
Bringing me the cider whisky
Feel a bit lonely too

For the first time in my life
I finally found someone like you
For the first time in my life
I finally found someone like you
I feel like a bolt of lightning
But it feels so good
Knowin' my baby's waitin'
And of course I do
Hey hey hey

Never in my life
Could I find a girl like you
Never in my life
Could I find a girl like you
When I turned around to wake her
About the way she moves
I don't want to leave her
But I wanta love you too
