

# Movetown, Round'N Round

Round and round and round she goes

She's got blood filled with fire  
She'll burn you inside out, yeah  
When she laughs, it's only desire  
She won't even know your name

Round and round she goes  
You know the woman's on fire  
Every man wants to buy her  
Round and round she goes  
You know the woman don't stop  
Untill she knows she's on top, yeah  
(2X)

Top, yeah, top, yeah...

Round and round and round she goes

Move time  
Gonna make you move that body  
No need to stop, it don't hurt nobody  
Talking 'bout round and round  
I'ma show you girls, how to shut 'em down  
Scorching like fire, my desire  
Looking for the girl, to take me quite higher  
Throw that hands on in the sky  
That's how we do, 'till the day we die!

She's got blood filled with fire  
She'll burn you inside out, yeah  
When she laughs, it's only desire  
She won't even know your name

Round and round she goes  
You know the woman's on fire  
Every man wants to buy her  
Round and round she goes  
You know the woman don't stop  
Untill she knows she's on top, yeah

Round and round (the woman's on fire, she's taking me higher)  
We're about to move, baby, come on!

Round and round and round she goes

Hypnotized, like a moth to a flame  
Looking for another way to break it, insane  
I can't understand what's in my brain  
It's the ways that we do it, never ever (...)  
Got the 4 on the 4 for you to (...)  
I'ma show you how we do, we do it right  
What you wanna do, then again the sound  
It's the ways that we do  
When we in the Movetown

Round and round she goes  
You know the woman's on fire  
Every man wants to buy her  
Round and round she goes  
You know the woman don't stop  
Untill she knows she's on top, yeah

Round and round she goes (2X)

Round and round and round she goes
