

# Mozart Season, Her Only Medicine

It's cold outside tonight  
And where is she  
She's hiding from herself again  
Cutting deep into her pale skin  
Is her only medicine  
She's blaring music to drown the sounds  
Of her own sobs  
She looks into the mirror again  
The mirror again  
Be strong  
She tells herself  
Listen to this song  
She screams  
With tears running right down her face  
Like water falls into oceans  
I cant go on  
She cant go on like this  
Not like this  
Its warming up outside  
But not inside of her  
The bitter chill of lifes uncertanties  
Is wearing at her empty soul  
But she hides her life of desperation  
With smiles and lies  
But at the same time she is praying  
For suicide

...  
Save your self  
I cant save you

...  
No  
Save your self  
Save your self  
Save your...
