

# MoZella, Amnesia

Help me cause I'm falling and I just can't see you  
You came along and took a hold of me.  
You gave me sugar-coated valentines  
Promises that you were mine.  
Tying up my line. Talking dirty to me.  
And all I need I thought I found.  
You only let me down you went sleeping around. around.  
I wanna go back to the day before I met ya.  
Things would be better  
If I could forget ya.  
Somebody give me something strong so I can release ya.  
I double shot of amnesia  
Life could be sweeter (for me).  
Everyone was saying what are you doing playin  
With her heart when you don't care.  
She's much too young to string along put her back where she belongs.  
Why you doing her wrong. it's just not fair.  
And all I need is piece of mind  
I wanna put it behind  
Quit wastin my time. My time.  
I wanna go back to the day before I met ya.  
Things would be better  
if I could forget ya.  
Somebody give me something strong so I can release ya.  
A double shot of amnesia  
life could be sweeter. (for me)  
Yea you only let me down.  
How you turn a girl around.  
And now I need some piece of mind.  
I want to put this behind.  
Stop wastin all my time.  
I want to go back to the day before I met ya.  
Things could be better  
if I could forget ya.  
Somebody give me something strong so I can release ya.  
A double shot of amnesia.  
Life could be sweeter. (for me).  
I wanna go back to the day before I met ya.  
Things would be better if I could forget ya.  
Somebody give me something strong so I can release ya.  
A double shot of amnesia.  
Life could be sweeter. (for me)
