## Mr. Big, Not One Night

I used to dream of only you Now I don't do that I used to miss talkin' to you Ah, now I don't do that

Since you've been gone I learned to stop Tryin' to hold on Because there's...

(Chorus)
Not one night
One single day
That I wouldn't give to you
So with all my might
In every way
I'll try to forget you too

I thought you could tell me anything Yea, you used to do that You let me inside of everything Yea, you used to do that Never to change at least I thought It feels so strange because there's...

## (Chorus)

Loneliness may come
Knockin' at my door
But where I'm comin' from
That don't phase me anymore
Time has shed a little light
On where I'm supposed to be
There ain't no use in thinking
You'll come running back to me

Since you've been gone I learned to stop Tryin' to hold on because there's...

(Chorus)
