

# Mr. Lif, Pulse Cannon

Insight (Mr Lif) {T-Ruckus}

Its finished!  
Its finally tuned up  
Technical tweezes have  
Tightened the loose nuts  
(Now we can remove cuts as soon as they move up)  
{Ruck's in the back with the ax for the cuts  
Removing their bones to build thrones in the dungeon  
Hungry from war Dead bodies get bludgeoned}  
Gun em!  
(Examine the Pulse Cannon  
The result of diligent planning  
Serving the area site)  
Now scanning four hundred soldiers  
Approaching the landing  
{Their family's abandoned,  
They're on a fool's quest  
Organs liquify from a blast in the chest  
This hardly a test for my  
Power cosmic bomb shit  
Trauma an absence of logic  
It's what they displayed  
Motherfuckers fillet  
And the blood of ten men  
On the end of my blade}  
They try to invade  
(We slight from their raid)  
{An aura of death}  
(From the suckers we sprayed)

(Chorus)(All Three)  
Ready, Set  
Aim, Fire!  
Burn, Turn  
Salute, March  
Charge, Launch  
Tally, Pull  
Devastating Energy  
(Behold)  
(2X)

Feel the fluctuating blast of  
Concentrated energy  
A deadly dose of shock churn through the enemy

(Potentially)  
Paralyzing  
(Damages)  
Resonance  
(The effects are evident)  
{I terrorize infinitely  
Exert myself minimally  
Certain death is the penalty}  
Revive 'em  
(Clear)  
We got a pulse here  
{Ready on the left}  
(I'll prick through his right ear)  
Now give him his nightmare  
(Terror)  
{Got him!}  
To be sure that I stop him  
I chop the ??corpus collosum??

(The enemy claims)  
{Their power was awesome}  
Toss 'em in the moat  
{(Their body float)}  
(They're panicking 'cause their is no hope)  
{Po's beam reflecting off my (Chainmail coat)}  
The sergeant is done  
Slam the commander  
{Body count taken we're burn downin' banner}  
(They didn't understand the incredible force)  
{(Knights Of The Round Table)}  
(They battled and lost)

(Chorus)

{\*Statik Selectah skratches\*}  
&quot;Bodies may have been hurtled by the blast&quot;  
&quot;When the building collapsed&quot;  
&quot;Damage&quot; &quot;Casualties&quot;  
&quot;Fire disaster&quot; (sound of a building collapsing)
