Mr. Mister, Healing Waters

Yellow moon, face of a prophet, shooting star, light of the heavens Shine down, shine down on our tiny enterprise Where do we go when all our time's been wasted Just keeping score on who is right or wrong - there's no reason

Chorus:

Follow the road, the road that leads us where the healing waters flow Where do we go when the world forsakes us, where the healing waters flow

Silent god moving in my heart, telling me not much I understand But I - but I need to know, so I fight on Here every beast must feed upon the other, oh When will the lion lie down with the lamb - there's no reason

(chorus)

There is a river running deep into my soul Rushing like a vision over me, it flows

Where do we go when all our time's been wasted Just keeping score on who is right or wrong - there's no reason

(chorus repeats out...)
