

# Mr. Probz, Till You're Loved

Can you tell me  
How close is too close  
How far is too far  
I gotta know  
You see beauty  
In the things I don't see  
Body to body  
Soul to soul

But I've been nursing a broken heart  
Taking the steps back to where I start  
Don't know where we're going  
No no no no  
You got something about your light  
Showed me I wasn't living right  
Don't care where we're going  
Don't need to know

What is love  
What you give is nothing I've known  
What is love  
What is love  
Since you've been here I finally know

You're nothing until you are loved  
Nothing until you are loved  
No no no no  
Nothing until you are loved  
Nothing until you are loved  
No no no no no

Can you tell me  
How sure is too sure  
When I say I'll do more  
I gotta know  
You see through me  
Even when we don't speak  
Body to body  
Soul to soul

But I've been nursing a broken heart  
Taking the steps back to where I start  
Don't know where we're going  
No no no no  
You got something about your light  
Showed me I wasn't living right  
Don't care where we're going  
Don't need to know

What is love  
What you give is nothing I've known  
What is love  
What is love  
Since you've been here I finally know

You're nothing until u are loved  
Nothing until you are loved  
No no no no  
Nothing until you are loved  
Nothing until you are loved  
No no no no no

Nothing until you are loved  
Till you are loved
