

Mr. T Experience, Time For Your Medicine

I used to sit here thinking, 'bout the weird things that I'd see,
And it confused me.

But I have to say, one thing's gotten very clear,
since I've been in here.

Time for your medicine medicine medicine

Time for your medicine medicine medicine

Time for your medicine medicine medicine

The doctors keep me here, so I can let them know

If I escape tonight, where will I go?

Sometimes I sit here thinking, 'bout the way things ought to be,
and who is killing me.

But I have to say, one thing's gotten very clear,
I know my enemy.

Time for your medicine medicine medicine

Thanks for the medicine medicine medicine

Take it Frank...
