

# Ms dynamite, A little deeper

Have you ever had a broken heart, felt so much pain  
Lived in so much dark thought you'd never see the light again  
Have you ever yearned from deep within when you see others laughin  
That just for one second, you could b them  
I lived life hidin behind the curtain  
Never known for certain when I'd be free  
I lived life as my shadow hopin that the pain would go  
But all the time I was hidin from me

[Chorus]

If you know what I mean  
If you too are searchin 2 b happy  
All you gotta do is dig a little deeper within you  
Have you ever fallen out of love  
Your feelings just disappeared  
But it's yourself you're thinkin of  
And so still you kept them near  
Have you ever been untrue  
Even though you knew right from wrong  
But the coward in you just kept them hanging on  
I ain't charmin 2 b no angel  
I really never meant 2 it just weren't meant 2 b  
I knew he thought I was the one  
The least that I could of done was made him hear it from me

[Chorus 2]

If you ever been through broken heart then really you need 2 remember how it  
felt b4  
Ur untrue  
And think a little deeper bout what you do
