

# Ms. Dynamite, Krazy Krush

Long time I been waitin' to get next to you,  
Long time I been anticipatin' the things that I wanna do,  
Long time I been feenin' just for one kiss,  
Long time I been dreamin' bout feelin' your tenderness.

Sometimes I wanna grab you and just dance slow,  
Sometimes I really feel the urge to let you know.  
The feelings I have if you how deep they gom  
I gotta Krazy Krush on you but can't seem to let it go.

If you knew the heat I feel when our eyes meet,  
So hot, so deep that it gets my knees weak,  
So sweet, but the heat's got my heart skippin' beats.  
I can't hide, though I'm tryin' to be discreet.

[Chorus:]

U got me feelin somethin',  
My heart it won't stop rushin',  
U got a sister blushin',  
Ooh dis Krazy Krush and...  
U got me day dreamin,  
U got a sister feenin',  
U got me thinkin' bout every word you ever said,  
This Krazy Krush it keeps foolin' up my head.

Long time it's all just been buildin' up inside of me,  
Long time I just wanted to touch but I just let it be,  
Long time I been searchin' for the words,  
They just dont come,  
Long time I been so certain dat u da one.

Sometimes I wanna grab you and just dance slow,  
Sometimes I really feel the urge to let you know.  
The feelings I have if you how deep they gom  
I gotta Krazy Krush on you but can't seem to let it go.

U come like sunshine they way you make my heart melt,  
U give me flutterin butterflies I never felt,  
U get me nervous I cantt keep my calm,  
Sweatin' at the palms,  
Temperature rise,  
Hypnotised by your charm.

[Repeat Chorus]

[Verse Three:]

Now here we are all alone,  
Here we are on our own,  
And my emotions are running wild,  
I really wanna let loose but it just ain't my style,  
Still I gotta show you,  
Make you know you,  
Touch my soul you,  
Got me outta control, ooh!  
I just wanna hold you,  
Taste your lips and get close to you.

[Repeat Chorus]
