

MU330, Fat And Married

We love you,
We need you,
We just can't breathe without you.
We love you,
We need you,
We just can't breathe without you.
You're happy, ecstatic,
Your life is so traumatic.
A lifetime of wondering just doesn't seem that appealing.
Here it comes.
We love you,
We need you,
We just can't breathe without you.
You're happy, ecstatic,
Your life is so traumatic.
A lifetime of wondering,
Just doesn't seem that appealing.
Here it comes.
Fat and married next thing buried,
What was comfort now is scary.
Fat and married next thing buried,
What was comfort now is scary.
Here it comes.
