

MU330, This Year More Than Ever

Last year we went sledding til we couldn't sled no more
It was so cold we went inside and threw
Our wet clothes on the floor, it seems like forever since
We warmed up together this year more than ever
You let me put my hands where they wouldn't be so cold
And I remember how you laughed when I kissed your runny nose
We made some hot chocolate but forgot all about it
This year more than any year
I wish I was coming home but the snow and ice has got
Me stuck on the road
If we were together I'd stay close forever
This year more than ever I'm coming home
