

# MU330, This Year More Than Ever

Last year we went sledding til we couldn't sled no more  
It was so cold we went inside and threw  
Our wet clothes on the floor, it seems like forever since  
We warmed up together this year more than ever  
You let me put my hands where they wouldn't be so cold  
And I remember how you laughed when I kissed your runny nose  
We made some hot chocolate but forgot all about it  
This year more than any year  
I wish I was coming home but the snow and ice has got  
Me stuck on the road  
If we were together I'd stay close forever  
This year more than ever I'm coming home
