

Mud Flow, Debbie And Charlie (the true story)

Okay let's try to find something on the table
'Cause our heads fall down, we fall apart and we go down
Okay let's try to finish you with a cup of Champagne
'Cause you wanna die, you wanna die, you will grow old

You never stops to loose your friends
Never stops, never ends
You never stops to loose your friends
Never stops, never ends

You'll again wanna see the rain
Falling down and set crying "???"
See you as a next to be adored
Let's reveal the girl out of your skinny existence

Hey ya, no I haven't found what I want, no
You never stops to loose your friends
Never stops, never ends
You never stops to loose your friends
Never stops, never ends
