

Mud Flow, Song1

I chose the poison
Can't see the reason why wine
Into my vein
Goes to my brain
I took the poison
In your direction
I've lost all affection
Lost inspiration

I came into this world
By the backdoor of your love
And the world, this is me true
I came into this world
The world, this is me true
It left me no surprises
I took the poison

He flows, the poison
Rips our life, I have left
Something I feared
Slowly appeared
I took the poison
I found a reason :
I tried in vain
To forget the pain

I came into this world
By the backdoor of your love
And the world, this is me true
I came into this world
And the world, this is me true
He left me no surprises
I took the poison
