

Muddy Waters, Young Fashioned Ways

I maybe getting old
But I got young fashioned ways
I maybe getting old
But I got young fashioned ways

But I'm gonna love a good woman
The rest of my natural days
If my hair's turning grey
I know you think the way I feel
There may be snow up on the mountain
But there's a thaw down under the hill

I maybe getting old
But I got young fashioned ways
I maybe getting old
But I got young fashioned ways

I don't worry about no young one
There'll be no one to take my place

A young heart's ????
But an old heart know what's going on

A young heart's ????
But an old heart know what's going on

A young heart my wanna raise
But an old heart stick out so long
