

Mudhoney, Karma

This really feels like flying
Am I lighter than air?
My hats all above the water floating
God only knows this could be anywhere

Well at least my lungs are still breathing
Well at least my heart still beats
Well at least my brain is still thinking
At least thats what I believe

I believe I remember slippin'
Or maybe, slidin' or trippin'
The whole damn sea was ripping
Unstable and violent, sickening
X2

Get behind me, Stand back all you devils
(get out of my head)
(go out of my head)
Get behind me, too

Well I've passed 100 miles of houses
Every door wide open
But no place feels like home
How long must I keep going?
