

# Mudhoney, Karma

This really feels like flying  
Am I lighter than air?  
My hats all above the water floating  
God only knows this could be anywhere

Well at least my lungs are still breathing  
Well at least my heart still beats  
Well at least my brain is still thinking  
At least thats what I believe

I believe I remember slippin'  
Or maybe, slidin' or trippin'  
The whole damn sea was ripping  
Unstable and violent, sickening  
X2

Get behind me, Stand back all you devils  
(get out of my head)  
(go out of my head)  
Get behind me, too

Well I've passed 100 miles of houses  
Every door wide open  
But no place feels like home  
How long must I keep going?
