

# Mudhoney, Take Me There

Feelin' so dull in the middle of action  
Out on the prowl lookin' for a distraction  
I found you out looking unaware  
I knew if you could you'd take me there  
C'mon - yeah - oh - take me there

Following you to provoke some reaction  
Turning around face to face with satisfaction  
Living so cold in a world of care  
You know I'd love you to take me there  
Today - oh - c'mon - take me there  
Take me there

I can tell from the look on your face  
You've been thrown around a better place  
I can tell from the look in your eyes that things here just ain't right  
I can tell from the smile on your lips it must have been one hell of a trip

Take it baby no I don't care  
Take me now just take me there  
Take me there take me there  
Take me there
