## Mudhoney, Thorn (Single Version)

I've got a thorn in my side About the size of your eye I feel it sticking through I feel it sticking through

You're all watching for me With such intensity It doesn't matter what I do It doesn't matter what I do

Take your eyes off me Maybe then you'll see The world was sticking at you The world was watching you

You're just a thorn in my side Wasting effort, wasting time It doesn't matter what I do It doesn't matter what I do It doesn't matter what I do Your world is dying too
