

# Mudvayne, A New Game

Longer  
Inside me  
The doe is rising  
To clench us to kill  
Lusting  
Your nothing but you know me  
Stand against your will  
To satisfy me  
Bit by victim  
Stealth is me  
...  
Sature me  
Say all the right things  
Just come with me  
(lets go for a ride)  
[chorus]  
Trust me, don't leave me, don't be so deceiving, god help me  
Betray me, the bloodlust and beating  
Just wanna play  
Just wanna play  
A new game  
The hunter is in me  
The doe is searching  
Dash for the kill  
Abducted  
Take away  
Search for the patience  
Of 1000 men  
Peel my eyes  
Lock on target  
The covert man  
(you never had a chance)  
Don't be alarmed  
Want some candy?  
Just ride over here  
(now get inside)  
[chorus]  
A new...  
I just wanna play  
(just wanna play)  
I just wanna play a game  
A new game  
You meant everythin to me  
(you know your time has come)  
Another broken dawn today  
(you know your time has come)  
[x2]  
I just wanna play  
(i just wanna play)  
I just wanna play a game  
(just want to play a game)  
One that you've never played before  
(never before)  
One that you'll never play again  
I'm sure  
[x5 (1st time has no backing)]
