

Mumbo Gumbo, I Dreamed It

On a moonlit night in the quiet still
I will hold your hand and whisper
I have something you, you have
something me
we have taken root in my heart and
so I dreamed it
I, I, I

Pretty butterfly with your yellow wings
you are on my lips drinking
in a garden we sit and flit awhile
and the buzz we make keeps you deep inside my dreams
I, I, I
I dreamed it
I, I, I

Now I want to tell you
something more than anything
My love is waiting, love is waiting,
my love is waiting

For the gentle jump of your giant heart,
For the breath we make when you wake me
for the beautiful of your everyday
for the luxury of your welcome me
I dreamed it
I, I, I
I dreamed it
I, I, I

Now I want to tell you something
more than anything
My love is waiting, love is waiting,
my love is waiting

In a pocket I keep a petal from
the day you gave me a flower
it smells just like you, just like you
it has taken root in my heart is
what I dreamed it
I, I, I
I dreamed it
I, I, I
