

# Munn, Glimpse of Heaven

This is once in a lifetime  
All our stars have aligned  
I need you to see this through  
Someone like you is hard to come by  
Once impossible to my mind  
Made possible by you  
Destiny is calling  
It's ringing in my ears  
I'm praying that you're all in  
We'll conquer all our fears  
I know I need to let go  
Let God point the way  
'Cause every time I take control  
I lose another day  
I'll tell you all I know  
You gave a glimpse of heaven  
When the world gave me hell  
And all I want  
Is for you and I to say  
We loved well  
Living on the high road  
Like there's no tomorrow  
Like we know our time is borrowed  
Walking on a tightrope  
Hoping you don't let go  
'Cause I can hear the echo  
Destiny is calling  
It's ringing in my ears  
I'm praying that you're all in  
We'll conquer all our fears  
I know I need to let go  
Let God point the way  
'Cause every time I take control  
I lose another day  
I'll tell you all I know  
You gave a glimpse of heaven  
When the world gave me hell  
And all I want  
Is for you and I to say  
We loved well  
Destiny is calling  
It's ringing in my ears  
I'm praying that you're all in  
Our time's already here  
I know it's hard to let go  
But let God point the way  
'Cause we can't do this on our own  
We were made to walk by faith  
I'll tell you all I know  
You gave a glimpse of heaven  
When the world gave me hell  
And all I want  
Is for you and I to say  
We loved well  
I'll tell you all I know  
You gave a glimpse of heaven  
When the world gave me hell
