

# Murder By Death, The Black Spot

My friend my friend  
You were loyal and true  
'Till that wretch of a woman  
Well she got to you  
My friend my friend  
I been down on my knees  
But I won't be beggin'  
No more beggin' please

The black spot the black spot  
Never thought I'd be the one givin' it to you  
The black spot the black spot  
My heart just ain't in it no more

My lover my lover  
We sure had somethin' strong  
'Till you took our love away  
And left before long  
My lover my lover  
I been down on my knees  
But I won't be beggin'  
No more beggin' please

The black spot the black spot  
Never thought I'd be the one givin' it to you  
The black spot the black spot  
My heart just ain't in it no more

You can build a love up  
Make the foundation strong  
But soon the cracks start to show  
You can build a love up  
As best as you can  
But sooner or later  
It's gonna show
