

# Murderdolls, I Take Drugs

I take drugs  
I take drugs  
I take drugs I take drugs  
I take drugs and you should too

I take drugs  
I take drugs  
I take drugs and you should too (repeated)

Every day in every way  
I'm looking for a fix to make me feel ok  
I need something to give me hope  
Like an automatic weapon or an eight ball of coke

I take drugs  
I take drugs  
I take drugs and you should too (repeated)

I'm stressin out I need it now  
I need some fucking pills to bring me down  
What's the crime if I snort a line  
Toke, choke shoot it up all at the same time

I take drugs  
I take drugs  
I take drugs and you should too (repeated)

I need the drugs and they need me  
Drug use is the only use for me  
Just say no but I'm always sayin yes  
To the D R U G S

I take drugs  
I take drugs  
I take drugs and you should too (repeated)
