

Murmurs, Smash

I dreamed that I knew
The secret code
I cracked the formula
And found the perfect note
Now it's so easy
To give you what you need
Your face betrays you
It's not so hard to read
Big hit
Backlash
I see your face and I wanna smash
Smash!
Gonna take you far
Your charm
Sweet sound
It's all for sale
Go climb Mount Everest
You can't afford to fail
A certain beauty
That million dollar smile
Just give them what they want
Before it's out of style
You wanna smash
Smash!
Gonna take you far
Don't wanna crash
Crash!
Who do you think you are?
Big hit
Backlash
I see your face and I wanna smash
Smash!
Gonna take you far
Don't wanna crash
Crash!
Who do you think you are?
Have a drink some poisoning
And get so high
You'll forget how to think
Go cry, and crash
So dry, get trashed
No lie, all thrash
Oh my, more cash
You wanna smash...
