

Murmurs, Squeeze Box Days

Hey youk, you can stay here if you want
You can even mess up my life
I know we don't got much to talk about
Just play with my hair and I'll be happy

I don't even care if you don't know me
And I don't even care if you don't like me
Can't we just spend tonight together
So I got something to think about tomorrow?

Hey you
Did you know you had me wrapped around your little dirty finger?
Hey could you please draw me a picture
And you might as well make me look like a man.

I don't even care if you don't love me
And I don't even care if you don't want me
Can't we just spend tonight together
So I got something to think about tomorrow?

Hey you
Dile you know you make me wet just by looking at your smile?
I know I don't even have a bed to fuck in
But let me make a phone call, I'll have one in a while

I don't even care if you don't like me
And I don't even care if you don't need me
Can't we just spend tonight together
So I got something to think about tomorrow?

Hey you
Aren't you leaving next week?
Aren't you going back to Boston?
Aren't you going to see your boyfriend
And are you going to tell him about me?
