

# Muse, Exogenesis: Symphony Part 2 (Cross Polli

Rise above the crowds  
And wade through toxic clouds  
Breach the outer sphere  
The edge of all our fears  
Rest with you  
We are counting on you  
Its up to you

Spread, our codes to the stars  
You must rescue us all  
Spread our codes to the stars  
You must rescue us all  
Tell us, tell us your final wish?  
Now we know you can never return  
Tell us, tell us your final wish?  
We will tell it to the world
