

Muse (USA), Star

It's gonna to be ok
can afford another day
at fifty bites per second
I've never seen your face
I've never heard your voice but

i think i like it when you
instant message
we made a promise
i can feel it i can tell
your gonna be just like me

My eyes are gonna strain
my heart is feeling pain
at fifty beats per second
i've never seen your eyes
i've never heard your lies but

i think i like it when you
instant message
we made a promise
i can feel it i can tell
your gonna be just like me

You tell
You tell me
