

Museum, The Law

We differ good from bad for you
We do
We differ good from bad

We decide good and bad for you
We do
Are you on our side?

When it comes out

We know right from wrong
And we know which side we are one
It's very simple

We only have to choose which side you're on
Which side you're on
We are the good ones

There will be a law
And we'll make it
Yeah we will make it

We differ friend from foe for you
We do
We differ friend from foe

We decide friend and foe for you
We do
Are you on our side?

When it comes hard
We know right from wrong
And we know which side we're on
It's very simple

You only have to choose which side you're on
Which side you're one
We are the good ones

There will be a law
And we'll make it
Yeah we will make it

There will be a law
And we'll make it
Yeah we will make it

You know just this depends on
Your force your force
And you know we adjust

We know justice justifies the wars
The wars
And you know we adjust

When it comes hard

We know right from wrong
And we know which side we are on
It's very simple

You only have to choose which side you're on
Which side you're on
We are the good ones

There will be a law
And we'll
Yeah, we will make it
