

Mushroomhead, Simple Survival

The shadow within me
The sorrow at my feet

Push the colors from the make up

Drop your feelings at the door
Has anybody here had enough
Walking in on so much more
Gonna make you give up

I wanna see you get up

I said your the only one
Whats your name
Who do you love
I wanna hate you kill you
Treat you like ive have enough

Keep breaking the shame
Take away all i wanna say
Regretting the day
You dont believe in me
Ill show you just what you wanna see
The end in me

Gonna lead the revival
No simple Survival
For me
