

Music Video, Abandoned Highways

Is she alone as she is always?
I watch the stone roll through the star-ways
I ride along abandoned highways
Is she alone as she is always?

Is she alone as she is always?
I can't forget the smile on her face
Was I supposed to take her to that place?
Is she alone as she is always?

And then I'm caught up in her story-line
It's so exciting but it isn't mine
It feels just like were running out of time
Because I'm buried in her story-line

She said: Sing me a song, I wanna tag along
Just for the ride, its not where I belong
Sing us a song, it won't be too long
Just take me there and I'll move right along

Is she alone as she is always?
I watch the stone roll through the star-ways
I ride along abandoned highways
Are we alone as we were always?

I'm getting caught up in her story-line
It's so exciting but it isn't mine
It feels just like I'm running out of time
Because I'm buried in her story-line
