

Musiq, Future

[Chorus I]

Hey ya'll, hey ya'll don't you ever let no one tell you to grow up and give up on your dreams.

Hey ya'll, hey ya'll ain't nothing worse than to let someone tell you to grow up and give up on your dreams.

Hey ya'll, hey ya'll

Everybody's got something that they want to be in life

And I'm sure it's something that you may have wanted to try.

It don't matter how old you are or how many dreams you have

Or how many people got your back

Let me tell you.

[Chorus]

Everybody's got something that they want to be in life and I'm sure it's something that you may have wanted to try.

It don't matter how old you got, or how many kids you got, or how many things you gotta do.

[Chorus II]

Don't worry you can do it baby (It's yours)

Ain't really nothing to it baby (It's easy)

Take your time and you can do it cuz

Whatever you want it's all up to you it ain't hard

I promise you can get it but in order for you to get it you gotta be in it. (Alright)

And once you in it you can win it cuz whatever you want it's all up to you it ain't hard (word)

[Chorus II]
