

Musiq, My Girl

Oooooooooooooohhhhhhhhh Oh Oh Oh

Last nite u said u wanted to talk to me
But I was at work and u know how my job could be
So then u said that it could wait until later on
'Cause it wasn't really all that important
I guess we could talk when u get home
So now u got me thinkin' 'bout all the things I've done
And wonderin' if I did something wrong
But then again, it didn't really sound, as if u were mad
It could've been something, u were just afraid to ask me

Chorus

If there's anything that u want, u need
Don't be afraid to ask 'cause you're my girl
If there's anything that u want, u need
Don't be afraid to ask 'cause you're my girl

Girl don't u know my whole world stops for u
In this relationship you're first and I come two
And I appreciate
How u respect my space
'Cause on the real I'm there for ya
Anytime of day
You should never start to wonder where u stand
'Cause each and everyday I live
I'm gon' show u that I'm your man

Chorus

Ain't nobody else girl
Ain't nobody else baby
Ain't nobody else got ya back like I do girl
Oh no baby
See no girl
Let me tell ya
See 'cause I'm
I'm ya man
I'm gon' be there
Whenever you need me girl
See 'cause you're
See 'cause you're
See 'cause you're
My Girl

Chorus 'til end
