Verse 1: Before you go, can we just talk a moment. We Shouldn't end it like this. Can you just chill for a while put your bags down, and just try to hear me out (hear me out). I know that recently we've been fussing and fighting yeah. But, I know you're tired of me, but if you leave this is how I'll be picture me.

Chorus: Picture me down and out, lost without you. Picture me brokenhearted, I'm so lost and lonely.

Verse 2: You don't want to go as much as I want you to stay. (as much as I want you to stay). Cause I've built my whole life around you and I'm not just about to let it all slip away. And what about the tears that we shared, all the things that we've said were they all just in vain. Girl, if you bounce on me, what i used to be is just a memory. Cause this is how I'll be...

Chorus: Picture me down and out, lost without you. Picture me brokenhearted, I'm so lost and lonely.

Can you picture me girl, not wanting to eat no more, not wanting to sleep no more? I only want to be with you. Cause I need you and I've got to have you, oh.

Chorus: (fade out).
